Seeking scholarship readers!

The Oregon Tech Foundation needs readers to review scholarship applications this summer, during the last two weeks of July. The scores provided by volunteer readers are then used by the Scholarship Committee to determine the award recipients.

Time and again, recipients attest to the encouragement they felt upon receiving their awards and the significant difference the scholarships made to their financial situations.

What to expect:

- Training to help you can confidently evaluate applications
- A packet of about 20-25 applications; you will only review the activities charts and essays.
- A commitment of approximately 10-hrs over a 2-week period

To volunteer as a reader, please email: julie.daniels@oit.edu
